TOTAL RECURRING	**$43,794**

SOFTWARE LICENSE MANAGEMENT - PROPERTY MANAGEMENT RESPONSIBILITY

Centralized License Management (Property Management Department)

The Property Management department is responsible for centralized software license management across all departments. This includes:

Asset Inventory & Tracking:

- Maintain master inventory of all software licenses
- Track license assignments to users and departments
- Monitor license utilization and compliance
- Manage license transfers between employees

Renewal Management:

- Track expiration dates for all subscriptions
- Process renewals in advance of expiration
- Negotiate enterprise pricing and volume discounts
- Evaluate renewal vs. replacement decisions

Cost Allocation:

- Allocate software costs to appropriate departments
- Track software spending against department budgets
- Generate cost reports for financial planning
- Identify cost optimization opportunities

Compliance Monitoring:

- Ensure license compliance across all platforms
- Conduct quarterly software audits
- Manage vendor relationships and contracts
- Maintain documentation for audits

Onboarding/Offboarding:

- Provision software access for new employees
- Revoke access upon employee separation
- Transfer licenses as needed
- Maintain access logs

DEPARTMENT BUDGET CLARIFICATION

Department budgets cover all operational needs, not just software. Each department budget includes:

Category	Examples
Software & Subscriptions	SaaS tools, cloud services, licenses
Equipment	Computers, monitors, peripherals, specialized tools
Supplies	Office supplies, materials, consumables
Professional Development	Training, certifications, conferences
Travel	Business travel, client meetings, conferences
Contractors	Freelancers, consultants, temporary staff
Marketing	Advertising, promotional materials, events
Miscellaneous	Unexpected operational needs

Department managers have authority to allocate their budget across these categories as operational needs dictate, subject to organizational policies and CEO approval for major expenditures.

SOFTWARE MANAGEMENT POLICIES

License Management

1. All software licenses are registered under @lawscollective.org domain
2. CEO/Founder maintains master admin access to all platforms
3. Department managers have admin access within their department
4. Property Management tracks all licenses centrally
5. Licenses can be reassigned as needed

Portability

1. Cloud-based software can be accessed from any authorized device
2. Users log in with organizational credentials
3. Perpetual licenses (DaVinci, Final Cut, etc.) are tied to organization

4. Software can be installed on multiple devices per license terms

Budget Authority

1. Department managers have authority to manage software within allocated budget
2. New software requests over $500/year require CEO approval
3. Quarterly software audit conducted by Property Management
4. Annual budget review and adjustment

Security

1. All accounts use organizational SSO where available
2. Two-factor authentication required on all platforms
3. Regular password rotation (90 days)
4. Immediate access revocation upon separation

NOTES

- This document serves as the master reference for organizational software access
- Software budgets are estimates and may vary based on actual usage and pricing changes
- Department managers are responsible for training team members on their software
- Property Management maintains the centralized license management system
- CEO/Founder retains override authority on all software decisions
